

SEMINARIO

Dipartimento di Biologia

Giovedì 28 Marzo 2024

h. 15.00, Aula seminari Blocco
A, (Sesto Fiorentino)

Systematics, biogeography and
evolution of the herpetofauna of
Madagascar

Angelica Crottini, PhD

Centro de Investigação em
Biodiversidade e Recursos
Genéticos, Portugal

SEMINARIO

Systematics,
biogeography
and evolution of the
herpetofauna
of Madagascar

Galaxy A04s

SEMINARIO

Systematics,
biogeography
and evolution of the
herpetofauna
of Madagascar

SEMINARIO
Systematics,
biogeography
and evolution of the
herpetofauna
of Madagascar

Herpetological assessments

Betampona Strict Nature Reserve: 102 days of survey

- 76 taxa:
- 43 Candidate new species
 - 29 microendemic to this area

Rosa et al. (2012) Biodivers Conserv 21:1531-1559

Life history and reproductive strategy
